EATING SMART ON THE RUN

Making Smart Drink Choices

DRINK WATER

- Drink six to eight
 8-ounce glasses of water each day
- Drink more water when it is very warm or you are more physically active
- Keep a water bottle handy in the car, at home, work or school
- Drink water before, during and after physical activity
- Encourage children to drink water

DRINK MILK

- Children 1-2 years: 2 cups per day of whole milk
- Children 2-8 years: 2 cups per day of fat-free or low-fat milk
- Children 9 years and older: 3 cups per day of fat-free or low-fat milk
- Adults: 3 cups per day of fat-free or low-fat milk
- Enjoy milk with meals
- Enjoy milk on cereal
- Enjoy milk in hot beverages
- Enjoy yogurt to go
- Enjoy frozen yogurt
- Enjoy yogurt smoothies

DRINK 100% JUICE

- Infants: No juice before 6 months. Off juice in a cup, not a bottle. Do not give juice at bedtime. Juice should be limited to no more than 4 ounces a day.
- Children ages 1-6: Limit juice to 4 to 6 ounces per day.
- Children ages 7 to 18: Limit juice to 8 to 12 ounces per day.
- Adults: Select whole fruits—fresh, frozen, canned or dried—rather than juice to get enough fiber.

DRINK FEWER REGULAR SOFT DRINKS

- Make them a sometimes drink.
- Drink smaller portions.
- Drink diet soft drinks or tea sweetened with low-calorie sweeteners.
